International Color Coding

Matrx® Veterinary Anesthesia Machines are manufactured in the United States for a variety of countries according to several domestic and international gas color coding standards. All products pictured in this catalog are of standard ANSI (USA) color coding with the appropriate part numbers of your country or ISO standard listed for your convenience. All products shipped will be manufactured according to the part number specified at the time of purchase.

Color Coding Chart

Country	N ₂ O	O ₂
United States/ Japan	Blue	Green
Canada	Blue	White
Standard ISO	Blue	White

Pricing and product availability in this catalog supersede information in all other catalogs. Products and prices are subject to change without prior notice. Midmark prices that are in effect when your order is received will be honored even if the items are temporarily out of stock.

Small Animal Anesthesia Machines

Matrx VMS® Plus

The Matrx VMS® Plus provides more functionality with two shelves for convenient placement of monitors and equipment. Its dual vaporizer mounting capability allows you to easily switch from one vaporizer to another.

- Includes occlusion valve
- Dual view oxygen flowmeter – glass tube with a scale reading from 0.2 to 4LPM – quickly switch from standard to magnified view at the touch of a finger
- Easy-to-view inhalation/exhalation valves allow easy monitoring of respiration for patient safety
- Automatic air intake valve – opens to provide room air to patient if contents of breathing bag are depleted
- Oxygen flush
- 1500cc CO₂ absorber with “Quick Release” lever feature for easy absorbent replacement (accepts prepack canisters or 1350gm loose absorbent)
- Dome-type inhalation and exhalation valves – no tools needed to disassemble
- Scavenging/adjustable pressure limiting valve
- -60 to +60cm H₂O pressure gauge
- 15mm and 22mm diameter corrugated breathing circuits
- One and two liter breathing bags
- Chrome portable stand with 5-leg spider base and casters
- Convenient monitor shelves
- Accepts Matrx VIP 3000® and TEC 3 vaporizers (one mounting kit included)
- Dual vaporizer mount capability
- Oxygen low-flow flowmeter or nitrous oxide flowmeter add-on capability

Matrix VMS®

The Matrix VMS® Small Animal Anesthesia Machine is a long-time favorite of veterinary professionals. It is designed for safe, simple and controllable small animal inhalation anesthesia. Optional shelves available.

- Includes occlusion valve
- Dual view oxygen flowmeter – glass tube with a scale reading from 0.2 to 4LPM – quickly switch from standard to magnified view.
- Easy-to-view inhalation/exhalation valves allow easy monitoring of respiration for patient safety
- Automatic air intake valve – opens to provide room air to patient if contents of breathing bag are depleted
- Oxygen flush
- 1500cc CO₂ absorber with “Quick Release” lever feature for easy absorbent replacement (accepts prepack canisters or 1350gm loose absorbent)
- Dome-type inhalation and exhalation valves – no tools needed to disassemble
- Scavenging/adjustable pressure limiting valve
- -60 to +60cm H₂O pressure gauge
- 15mm and 22mm diameter corrugated breathing circuits
- One- and two-liter breathing bags
- Chrome portable stand with 5-leg spider base and casters
- Accepts Matrix VIP 3000® and TEC 3 vaporizers (mounting kit included)
- Oxygen low-flow flowmeter or nitrous oxide flowmeter add-on capability

Matrx VME2®

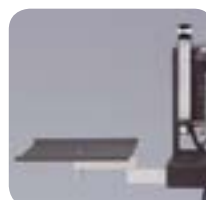

The Matrx VME2® places all your anesthesia equipment on one sleek, compact post. Optional add-on components allow you to add shelves, second flowmeter, second vaporizer, occlusion valve with safety relief and/or an emergency air intake valve.

- Dual view oxygen flowmeter – glass tube with a scale reading from 0.2 to 4LPM – quickly switch from standard to magnified view at the touch of a finger
- Easy-to-view inhalation/exhalation valves allow easy monitoring of respiration for patient safety
- Oxygen flush
- 1100cc CO₂ absorber
- Dome-type inhalation and exhalation valves – no tools needed to disassemble
- Scavenging/adjustable pressure limiting valve
- -60 to +60cm H₂O pressure gauge
- 15mm and 22mm diameter corrugated breathing circuits
- One- and two-liter breathing bags
- Portable stand with 5-leg spider base and casters
- Convenient accessory shelf
- Accepts Matrx VIP 3000® and TEC 3 vaporizers (single mounting kit included)

Matrix Spartan VMC®

The choice of practices that require more accurate control of oxygen levels at less than 1 LPM. Stand mount and tabletop models available.

- Oxygen flowmeters – glass tubes with fused scales reading from 0.2 to 4LPM and 0 to 1000cc/min. (graduated in 100cc/min. increments)
- Easy-to-view inhalation/exhalation valves allow easy monitoring of respiration for patient safety
- Automatic air intake valve – opens to provide room air to patient if contents of breathing bag are depleted
- Oxygen flush
- 1500cc CO₂ absorber with “Quick Release” lever feature for easy absorbent replacement (accepts prepack canisters or 1350gm loose absorbent)
- Dome-type inhalation and exhalation valves – no tools needed to disassemble
- Scavenging/adjustable pressure limiting valve
- -60 to +60cm H₂O pressure gauge
- 15mm and 22mm diameter corrugated breathing circuits
- One- and two-liter breathing bags
- Chrome portable stand with 5-leg spider base and casters or non-marring feet on tabletop model
- Accessory drawer for convenient storage
- Accepts Matrix VIP 3000® and TEC 3 vaporizers (mounting kit included)

91800042 (Vaporizer sold separately)

Matrx VME® Tabletop/Wall Mount System

Flexibility and performance at a low price.

- Light weight – 16 pounds
- Compact design: 18 1/8" x 16 1/4" x 7 1/2" (HxWxD)
- Convenient carry handle with soft vinyl grip
- Accepts VIP 3000® or TEC 3 vaporizers (mounting kit included)
- 0.2 to 4 LPM dual view oxygen flowmeter with standard and magnified views
- Rubber foot pads help prevent scratching of countertop
- Breathing circuit package included
- Optional wall mount kit is available
- Low flow model replaces the 0.2 to 4LPM flowmeter with a 0-1000cc oxygen flowmeter

Large Animal Anesthesia Machines

Matrx VML®

The Matrx VML® is designed for use in equine, bovine and other large animal anesthesia procedures. When outfitted with the optional Small Animal Breathing Circuit, the Matrx VML® is the machine of choice for practices involving both large and small animals.

- Dual view oxygen flowmeter – glass tube with a scale reading from 1 to 10LPM – quickly switch from standard to magnified view at the touch of a finger
- Easy-to-view inhalation/exhalation valves allow easy monitoring of respiration for patient safety
- Oxygen flush
- 5200cc CO₂ absorber
- Scavenging/adjustable pressure limiting valve
- 30 liter breathing bag
- 2" (5 cm) diameter semi-translucent breathing circuit
- Accepts Matrx VIP 3000® and TEC 3 vaporizers (mounting kit included)

91802004	Matrx VML® (USA)	\$6,555.00
91800154	Matrx VML® (ISO/Canadian)

Non-rebreathing Anesthetic Delivery Systems

Matrx VMR™ Low-flow Non-rebreathing Systems

Designed for safe, simple and controllable inhalation anesthesia for rats, small rodents, exotics and patients weighing less than 5 pounds (2.27 kg). The Matrx VMR™ provides rapid control of anesthetic depth with little resistance to respiration.

- Non-rebreathing anesthetic delivery system
- Dual-view oxygen flowmeter – glass tube with a scale that reads from 0-1000cc/min – quickly switch from standard to magnified view at the touch of a finger
- Includes Isoflurane or Sevoflurane Matrx VIP 3000® vaporizer, well-fill or key-fill style
- Standard flow (.2-4LPM) and Wall Mount models also available

Vaporizers

Matrx VIP 3000® Vaporizer

The choice of veterinary professionals for accurate anesthesia delivery under all conditions, the Matrx VIP 3000® Veterinary Vaporizer uses proven design principles to ensure output concentration is virtually unaffected by flow rate, temperature variations, duration of use, liquid level or back pressure fluctuation within its clinical range.

- Automatic flow rate and temperature compensation
- Large, easy-to-read dial
- Integrated safety lock to prevent unintentional engagement
- Large sight glass for at-a-glance liquid level monitoring
- Choice of agent-specific models for isoflurane or sevoflurane

91305430	Isoflurane VIP 3000® – Well-Fill	\$1,317.00

Vaporizer Service

Factory Service for Accurate, Reliable Operation

To assure continued accuracy and reliability, every Matrx VIP 3000® and TEC 3 vaporizer should be serviced and calibrated annually. Service includes:

- Complete disassembly and cleaning
- Ultrasonic bath to clean internal metal parts
- Calibration and adjustment of Thermo Control
- Reassembly with new seals and wick*
- Cleaning/polishing of exterior parts

Vaporizers ARE NOT field serviceable. Disassembly or service by anyone other than an authorized Factory Service Technician may result in damage or subsequent unsafe operation of the vaporizer.

* If additional parts are required you will be contacted with an estimate.

Our Vaporizer Service Center is staffed with highly qualified service technicians using state-of-the-art equipment. The Matrx VIP 3000 Vaporizer is a sophisticated device and under no circumstance should be tampered with or disassembled by anyone other than an authorized vaporizer service technician. These units ARE NOT field serviceable.

Matrx VXP™ Vaporizer Exchange Program

1 YEAR
WARRANTY

Simple, convenient and effective

If your vaporizer has been manufactured or serviced in the last 5 years, contact your dealer and request a Matrx VXP™ vaporizer. You will receive a TEC 3 type vaporizer for the agent you specify (isoflurane or sevoflurane). Simply exchange your TEC 3 vaporizer with the Matrx VXP™ vaporizer and return it to the Midmark Vaporizer Service Center in the shipping carton in which you received your Matrx VXP™ unit.

When you receive your Matrx VXP™ vaporizer mount it on your machine and you're ready to go. Enjoy no down time and the confidence of a cleaned, calibrated and tested vaporizer.

The Matrx VXP™ Vaporizer you receive has undergone the complete Midmark Vaporizer Service Center protocol.

91305535	Isoflurane VXP™ Well-fill Vaporizer	\$419.00
91305537	Sevoflurane VXP™ Well-fill Vaporizer	\$419.00

Scavengers

Matrx® Veterinary Anesthetic Gas Scavenger

The Matrx® Veterinary Anesthetic Gas Scavenger offers reliable active scavenging of waste anesthetic gas. It is designed to meet current ASTM and ANSI standards and is available in a post mount or wall mount configuration. Each wall or post mount scavenger unit will scavenge the waste anesthetic gas from one anesthesia machine.

Portable – post mount scavenger comes complete with 20 ft. (6m) of 32mm tubing, 5 ft. (1.5m) of 19mm tubing and post mount hardware.

Wall mount scavenger comes complete with 2 ft. (.6m) of 32mm tubing, 18 ft. (5.5m) of 19mm tubing and wall mount hardware.

- Designed to meet current ASTM and ANSI standards
- Available in post mount or wall mount configurations
- Quiet operation
- Can be used with a ventilator or oxygenator
- Easy to install, compact design with few parts
- Standard 19mm inlet connection
- Power on/off switch with indicator light
- Low voltage (12V DC) operation

Matrx® Central Scavenger

Keep your mind free to focus on caring for your patients, not on scavenging excess anesthetic gas. The Matrx® Central Scavenger safely removes waste gas from your clinic without the cost or hassle of charcoal canister replacement.

- Replace charcoal canisters forever with an active gas scavenging system that quietly and consistently keeps you safe
- Scavenge waste gas from up to 4 anesthesia machines
- Easily expand the system to cover up to 12 anesthesia machines without significant expense
- Keep your clinic neat and tidy without bulky interface devices attached to the anesthesia machines
- Simple installation process and flexible design ensures your scavenging system will be successfully installed
- Unparalleled service and support to give you peace of mind

40162800

40162800	Matrx® Central Scavenger (for up to four anesthesia machines)	\$1,849.00
20236000	Expansion Kit (for up to four additional anesthesia machines)	\$399.00

Ventilators

Matrx® Model 3000 Small Animal Anesthesia Ventilator

An electronically controlled, time-cycled, pressure-limited ventilator, the Matrx® Model 3000 replaces the breathing bag, providing smooth, even delivery of anesthesia. Designed specifically for veterinary practice, the Model 3000 assures a constant volume for each delivered breath, regardless of patient compliance and airway resistance. Easy-to-use controls make operation simple and convenient.

- Replaces the breathing bag
- Precise control of anesthetic state allows lower levels of anesthesia for more responsive patients, more economical operation with blood CO₂ and pH levels closer to normal
- More economical use of supply gas (oxygen, nitrogen or clean dry air)
- Interchangeable bellows adapt to animals from 1 kg to 300 kg – no tools required
- Maximum working pressure limit (MWPL) adjustable from 10-60 cm H₂O
- Dual airway pressure alarms signal any breath exceeding preset maximum or minimum
- Optional low supply gas alarm signals supply gas pressure below 35 psi
- Adapts easily to all anesthesia circuits with out of circuit vaporizers
- Respiratory rates from 6-40 breaths per minute at inspiratory flow rates from 0-100 LPM
- Tidal volumes (TV) from 20-3,000cc
- Built-in scavenging port

91806001	Model 3000 with 300-1600 ml bellows and bellows housing <i>Approximate Patient Weight Range 30-264 lbs. (14-120 kg)</i>	\$3,895.00
91806002	Model 3000 with 0-300 ml bellows, bellows housing and adapter <i>Approximate Patient Weight Range Up to 66 lbs. (30 kg)</i>	\$3,995.00
91806003	Model 3000 with 1600-3000 ml bellows and bellows housing only <i>Approximate Patient Weight Range 154-660 lbs. (70-300 kg)</i>	\$4,195.00

Note: All versions of the Matrx Model 3000 Anesthesia Ventilator include Model 3000 controller, bellows base assembly, pressure sensing tube and tee, driving gas tube, power cord, spare fuse and operating manual.

NOTE:

For ease of installation, use an existing gas supply as the driving gas. Please order one demand wye and supply hose.

Small Animal Induction Chambers

An excellent addition to conventional inhalation anesthesia procedures, the Small Animal Induction Chambers are available in four sizes to accommodate cats, small dogs, birds, mice and other small patients.

- Available in 45 liter, 18 liter, 5.25 liter and 1.5 liter sizes
- Constructed of .22" (5.6mm) impact resistant acrylic
- Inlet port accepts standard 22mm breathing tube or 15mm connector
- Outlet port accepts standard 19mm scavenging tube or 15mm connector
- Sliding, self-locking top has stops to prevent unintentional removal of lid
- Scratch-resistant feet
- Includes a hook-up kit to connect vaporizer to inlet port

Sterile Endotracheal Tubes

Superior cuff design helps you prepare for correct intubations every time. The thin, large diameter cuff conforms to uneven tracheal surfaces and maintains proper low pressure seal. A high-compliance cuff lies close to the tube, improving visualization prior to inflation.

Occlusion Valve with Safety Relief attaches easily between the Matrix® Exhaust Valve Dome and APL Valve as shown.

Matrix® Occlusion Valve With Safety Relief

The Matrix® Occlusion Valve with Safety Relief Assembly allows you to simply and quickly close the breathing circuit to allow you to bag (sigh) the patient.

- Easily attaches to your Matrix® anesthesia machine, no tools required
- Constructed of long-lasting anodized aluminum
- Safety relief feature (25-30cm H₂O) prevents unsafe pressure build-up in the anesthesia circuit/patient
- Simply operated by the push of a single silicone activation button
- Included with each Matrix VMS® and VMS® Plus Anesthesia Machine

93805114 Occlusion Valve with Safety Relief \$126.00

Go from a thumb nut style absorber (left), to a quick release absorber (right).

Absorber Quick Release Conversion Kit

Easily convert a thumb nut version absorber to a convenient quick release absorber. Simple flip lever locking mechanism allows you to easily seal the absorber canister. Compatible with anesthesia machines manufactured by Fraser Harlake, Ohmeda and Matrix® Medical.

91800138 Quick Release Conversion Kit \$150.00

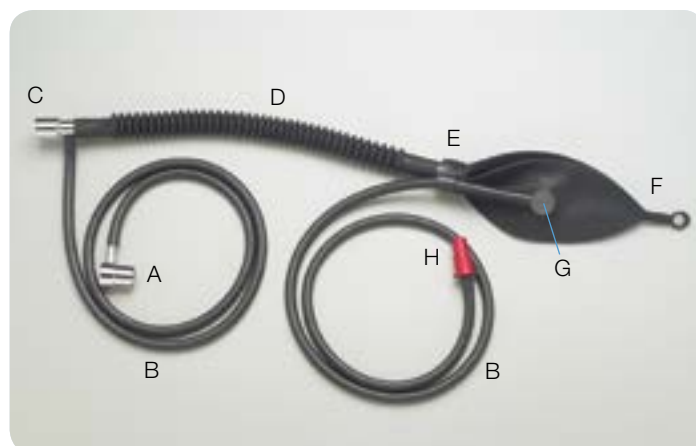

Ayres Non-rebreathing System with Scavenger Adapter

Connects in seconds to any Matrix® anesthesia machine. Designed especially for the small animal patient with less than 15 lbs (6.8 kg) body weight, it provides minimal dead space and less resistance to flow as compared to a full-circle system.

Midmark Casework

Midmark Modular Casework is specifically designed for clinical environments and offers many benefits, including casework design services. Contact Casework Project Coordinators at 1-800-MIDMARK, Ext. 88914.

- Clinical Design – designed to address the durability and infection control requirements of veterinary facilities
- Adjustable Glides – self-cleaning, ball bearing glides are fully adjustable for future storage changes
- Seamless Drawers – one-piece construction allows drawers to contain spills and is easy to clean
- Seamless Door Surfaces – resist spilled fluids and chemicals, and can be cleaned with no surface degradation
- Modular Design – easy to reconfigure systems allow you to add, rearrange or even move your casework with you

Many configurations and colors to choose from to fit your specific needs, including sterilization work centers.

Steel Hinges

Hidden, German-engineered 110-degree hinges give a distinct, clean look to the casework.

Adjustable Ball Bearing Glides

Self-cleaning ball bearing glides allow the drawers to slide in and out smoothly every time.

Seamless Panels

Seamless, polymer-covered panels provide a durable surface that resists spilled fluids and chemicals and can be cleaned with no surface degradation.

Steel Frame Construction

Steel frame construction delivers long life and consistent door and drawer performance along with a flexible shell design to allow for changing configurations.

Seamless Polystyrene Drawers

Rounded corners and one-piece construction allow drawers to contain spills and are easy to clean.

Veterinary Treatment Chase

Our space-saving casework chase design allows you to have the equipment you need, where you need it, without sacrificing floor space. Let us help you create the most efficient, effective space possible.

Dental Delivery Systems and Accessories

VetPro® 5000 Table Mount with VetPro® Solo Compressor
(Table with mounting option purchased separately, see page 55)

VetPro® 5000

The VetPro® 5000 Wall, Cabinet and Table Mount Dental Delivery System from Midmark features a unique whip-style delivery head that automatically activates the appropriate hand piece during the dental procedure, eliminating the problem of tangled hoses... a Midmark exclusive in veterinary dental equipment! The VetPro® 5000 was designed to support both wall mount and cabinet installations, saving valuable floor space in a crowded clinical environment.

- Whip-style head design provides unprecedented positioning possibilities, ensuring lower user fatigue and improving efficiency during the procedure.
- Handpieces automatically activate when removed from holders, allowing you to focus on the patient.
- Standard high and low speed handpieces as well as integrated Acteon Satelec® Piezo Scaler saves valuable space and further improves efficiency during the procedure.
- Standard Midwest 4-Hole connection type
- Optional fiber optics enables proper lighting
- Wall and Cabinet mount capability free up floor space, relieving congestion in a crowded clinical environment.
- Integrates with facility's centrally plumbed compressor system and city water
- Maximum distance of head from wall is 76" (193.04 cm)
- Delivery head can be raised or lowered 12.5" (31.75 cm)
- Minimum distance from wall to outermost point when fully collapsed is 31" (78.74 cm)
- 115V AC

*Compressed air source must be present or purchased separately.

VetPro® 5000 Mobile

The VetPro® 5000 Mobile Dental Delivery System from Midmark features our unique whip-style delivery head that automatically activates the appropriate hand-piece during the dental procedure on a convenient mobile cart containing a built-in, oil-free compressor! The compressor operates at less than 50 decibels, which is lower than the sound level generated by the average conversation. The heavy duty, enclosed cart allows you to position the unit at a variety of work stations and store it out of the way when not in use. The whip-style delivery head design and mobility of the cart allows virtually infinite positional preferences based on user and patient variables. Put the tools you need where you need them with the VetPro® 5000 Mobile.

- Unique whip style delivery head allows virtually infinite positional possibilities, enabling efficient patient care
- Automatic handpiece activation allows you to focus on the patient and procedure instead of fumbling with hand controls
- Integrated Acteon Satelec® Piezo Scaler
- Self-contained, oil-free compressor
- Toggle between the water reservoirs without depressurizing the system
- Locking casters to secure position

8001-010	VetPro® 5000 Mobile with Fiber Optic-high speed handpiece and LED scaler	\$9,869.00

VetPro® Solo Dental Compressor System

The VetPro® Solo is a unique, space-saving, oil-less compressor designed to power the VetPro® 5000 wall, cabinet and table mounted dental delivery systems. The footprint of the unit is designed to fit in most fixed height wet tables and includes a quick connect umbilical harness to easily attach to the VetPro® 5000.

- Quiet Operation
- Maintenance-free oil-less compressor means no messy oil changes
- Light weight and easily installed
- Includes external 15 amp 125 VAC outlet
- 2 year warranty
- Dimensions: 12.75 W (32.4 cm) x 20.89 L (53cm) x 11.40 H (29 cm)

8006-001	VetPro® Solo	\$2,545.00
----------	--------------	------------

VetPro® 1000

Introducing the VetPro® 1000 Mobile Dental Delivery System from Midmark. Our exclusive, oil-free technology means there is no oil to contaminate your handpieces, providing a clean, dry, aseptic work environment for you, your staff and your patients. And best of all . . . No more oil changes! That's better for your staff and better for the environment.

- Integrated oil-free compressor means no worries because it eliminates potential oil exposure to patients and messy changes! You will also have to replace your handpieces less often because there is no degradation from oil contamination.
- Handpieces automatically activate when removed from holders allowing you to focus on the patient.
- High and low speed handpieces included.
- Integrated Acteon Satelec® Piezo Scaler saves valuable space and improves efficiency during the procedure.
- Standard Midwest 4-Hole connection type
- Optional fiber optics enables proper lighting
- Quickly toggle between the dual 1-liter water bottles with a flick of a switch without de-pressurizing the system.
- External quick connects for water and air make setup easy.
- Medical grade casters allow you to position the cart where you need it.
- 115V AC
- 10' hospital grade powercord
- 18.5"D x 23"W x 36.5"H

Acteon Satelec® Scaling Tips

Made from the best alloys, exclusive to Satelec®, using patented procedures.

- Corrosion resistant
- Autoclavable
- Calibration: each tip is individually tested and “tuned” using the latest in ultrasonic calibration techniques.
- Spray Control System (SCS): more powerful cavitation, better spray control and perfectly-controlled vibration energy at the end of the instrument.
- Color Coding System (CCS tips): inserts are color coded to show their recommended power range.

VetPro® DR Digital Sensor System

The durable VetPro® DR delivers fast, clean images for diagnosis and client education. 19 µm x 19 µm pixel size, 26 lp/mm theoretical resolution and 4,096 levels of grey give you superior soft-tissue visualization, crown and root definition, and low noise.

No-Hassle installation: VetPro® DR uses the latest USB 2.0 technology. Simply connect the USB cable to your PC, use the quick calibration flash drive to prepare your sensor, and your system is ready to take high quality digital images.

- Cable is Kevlar® reinforced for exceptional durability
- Hermetically sealed, waterproof design means no problems during routine cleaning
- Advanced CMOS technology delivers outstanding image quality
- High speed USB 2.0 connection captures images 37% faster
- Rounded corners means easier positioning in tight spaces for better capture of roots
- 2 year warranty
- Optional Sensor Safe Extended Care Program protects your sensor investment against damage not covered by the manufacturer's warranty, for five years

Imaging Software

Our imaging software makes image capture simple. Select a tooth or tooth set to be imaged, and then click Acquire. Simple!

- Powerful, no-hassle software
- Intuitive and logical interface
- Simplified acquisition
- DICOM formatted images
- Back Up and Restore feature
- 22 practical and useful tools
- Create your own custom templates
- Bridges with most major practice management programs
- Store any digital image

Use your VetPro® DR System with our own easy to use imaging software. Look and formatting are familiar and easy to learn. Acquire, enhance and store images with ease. Our software features canine and feline tooth templates organized using the Triadan System, is DICOM compliant, and able to work with leading practice management systems and PACS servers.

Canis Major® Lift Tables

Canis Major® Dry

Canis Major® Exam Lift Tables are the finest veterinary lift devices on the market. Ask anyone who owns one.

- Table lowers completely to the floor and rises to 44" high
- Load capacity is 300 lbs
- The perpendicular orientation allows for access to both long sides allowing you to be eye-to-eye with your client
- Only the tabletop moves, unlike other units where the tabletop and back move as one piece, so the Canis® Major scale display remains at the same level no matter the position of the table
- Includes safety features that disable the down switches (of which you have three, two hand toggles and a foot switch) if anything is encountered under the table
- Freestanding, requires no bolting to floor or wall and is completely finished including the back
- Extremely sturdy and well balanced
- Includes a warm, non-skid Stat-Mat so pets have a less-stressful experience than with slick, cold stainless steel alone
- Both hand and foot operated motion controls
- Delivered fully assembled and ready for immediate use
- Plug-and-play technology – no messy wires
- The completely sealed units ensure a remarkably quiet actuator operation and require no internal maintenance
- Optional, automatic weight averaging scale is accurate to 50 grams at the lowest level so it's excellent not only for dogs and cats but kittens, exotics and other small species too
- 115V AC, 60 Hz, 10 AMP
- 55-1/2"L x 25-1/2"W x 60"H

CMWO	Canis Major® Dry Table without Scale	\$5,933.00
CMWS	Canis Major® Dry Table with Scale	\$6,870.00

Tables

Canis Major® Wet

The Canis Major® Wet Dental/Treatment table is the first adjustable-height lifting wet table. It incorporates many of the design features of our Canis® Major Exam Lift Tables with the benefit of a shallow treatment tub and grate.

- Table lowers to within 9.5" of the floor and rises to 44" high
- Load capacity is 300 lbs
- Tabletop moves independently of the back
- Freestanding, requires no bolting to floor or wall and is completely finished including the back
- Extremely sturdy and well balanced
- Convenient two piece grate with optional filler grate available
- The completely sealed units ensure a remarkably quiet actuator operation and require no internal maintenance
- Perpendicular cantilever design allows for access to both long sides so staff may sit with legs and feet directly under the tabletop to reduce fatigue, especially when performing ergonomically challenging dental prophys
- An internal sensor and diaphragm pump automatically drain the treatment tub. A unique, easily-accessible hair trap located under the tabletop eliminates clogging
- Includes an 8-foot lightweight water temperature controlled sprayer for easy cleanup
- Fully assembled and ready for hook-up and immediate use
- Optional, automatic weight averaging scale is accurate to 50 grams at the lowest level so it's excellent not only for dogs and cats but kittens, exotics and other small species too
- 115V AC, 60 Hz, 10 AMP
- 45" Model is 62"L x 30"W x 60"H
- 60" Model is 77"L x 30"W x 60"H

Wet Treatment Table

This table features a standard 36" height that easily integrates with Midmark Casework, giving your treatment area a uniform and esthetically pleasing look. The table leverages our best in class casework designs. The wet tub is excellent for all treatment and dental procedures. The removable hair trap and easy clean drain make maintenance a breeze.

- Wall mount capability
- 18-gauge steel, more durable than wood laminates, withstand the most rigorous clinical work
- Load capacity is 300 lbs
- Internal modular design allows you to customize door and drawer configurations to suit your needs
- Casework features all the benefits of Midmark design such as steel hinges, seamless drawers and adjustable ball bearing glides
- Baked-on epoxy finish means no rusting due to water exposure
- The perpendicular orientation allows for access to both long sides
- Optional goose-neck faucet and sprayer attachment makes post procedure clean up a cinch
- Available in Midmark casework colors including woodgrain option (additional charge)
- 48" or 60" L x 25" W x 36" H
- One end open for plumbing

Prep and Exam Tables

Island Exam or Treatment Table

The Midmark Fixed Height Island Exam/Treatment Table is perfect for your exam or treatment room. The table features a toe-kick base panel that wraps around the entire table, allowing you to approach your patient without obstruction. Choose from 44" and 59" lengths, a variety of tops in stainless steel or laminate and many door and drawer combinations, including custom designs to meet your needs.

- Wrap around toe-kick provides unobstructed access to your patient
- Add efficiency and style to your practice with your choice of multiple door/drawer configurations, 2 lengths, 15 casework colors and woodgrain selections, and 3 countertop options (laminate, stainless steel and Corian®) with 46 color options
- Sturdy 18-gauge steel construction with baked-on epoxy finish gives your treatment center a long lasting, professional and aesthetically pleasing look

Mobile Procedure Lights

355 Mobile Procedure Light

Includes 100 watt Quartz Halogen Bulb

- Unsurpassed shadow control
- A truer color temperature with less heat
- Counterbalanced to give you precise positioning without drifting
- Large pattern size with an even distribution of light throughout
- Superior foot-candle illumination
- Fully autoclavable handle
- Recommended for ceilings heights under eight and over ten feet
- Light weight: 60 pounds
- Shipping weight: 80 pounds
- UL 2601-1 and CAN/CSA C22.2, No. 601.1-M90

355-022 Mobile Light \$2,403.00

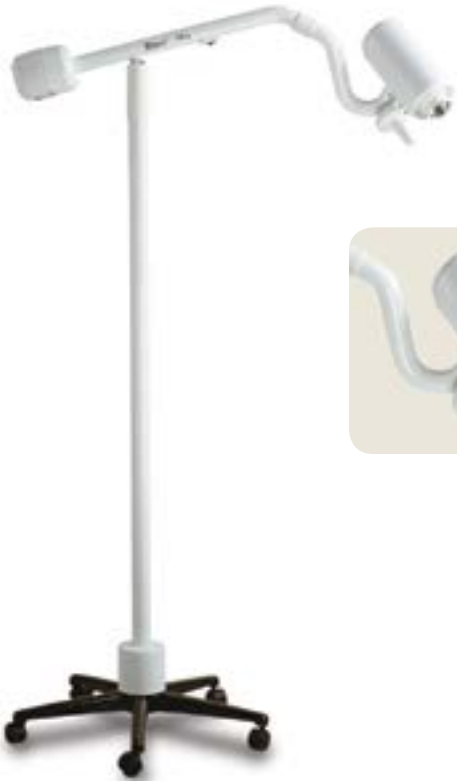

354 Mobile Spot Light

Includes 150 watt Quartz Halogen Bulb

- A color temperature of 4,200K to provide a whiter light and a true representation of tissue color
- Built-in fan on the back of the lighthead pulls airflow through the light
- Easy to adjust dimmer lever that controls the amount of light
- Another lever adjusts the spot size from 3" to 10"
- Fully autoclavable handle to help maintain infection control
- Light weight: 60 pounds
- Shipping weight: 80 pounds
- UL 2601-1 and CAN/CSA C22.2, No. 601.1-M90

354-022 Mobile Light \$2,811.00

Ceiling Mount Procedure Lights

The following model numbers are recommended based on the following ceiling heights (measured from the bottom of the ceiling surface to the floor).

Less than 8'	355-022	Mobile Procedure Light
8' to 9'	355-025, 355-031	8' Single or Dual Procedure Light
9' to 10'	355-028, 355-034	9' Single or Dual Procedure Light
Greater than 10'	355-022	Mobile Procedure Light or 10' Ceiling Mount Adapter Kit

355 Procedure Lights

Includes 100 watt Quartz Halogen Bulb

- Unsurpassed shadow control
- A truer color temperature with less heat
- Counterbalanced to give you precise positioning without drifting
- Available in single or dual ceiling mount versions
- Large pattern size with an even distribution of light throughout
- Superior foot-candle illumination
- Fully autoclavable handle
- Can accomodate ceilings ranging from eight to ten feet in height
- For ceiling heights under eight and over ten feet, the 355 Mobile Procedure Light is recommended
- UL 2601-1 and CAN/CSA C22.2, No. 601.1-M90

Single Ceiling Mount

- Light weight: 60 pounds
- Shipping weight: 80 pounds

Multiparameter Monitoring

Cardell® MAX-12 DUO HD

The Cardell® MAX-12 DUO HD contains the world leading Cardell® veterinary blood pressure technology, Nellcor's all-digital Oximax® pulse oximetry and the ability to upgrade any time to CO₂ with Philips-Respironics' solid-state Capnostat mainstream probe or LoFlo sidestream module. Invasive pressure can be included as an option, and the MAX-12 HDm and HDim offer the addition of multi-gas monitoring with the Draeger bench. These are all complemented by a diagnostic quality ECG, respiration via indirect impedance or direct through CO₂, and temperature. Download cases to a USB memory stick for easy transfer to your PC. View up to 8 waveforms at once, including 4 ECG waveforms. An esophageal ECG probe is also available.

- World-class Cardell® BP, Nellcor SpO₂, Respironics CO₂
- 12.1" high-definition color screen with ultra-wide viewing angle
- Built-in 3-channel graphical printer
- Upgrade to CO₂ anytime (sidestream or mainstream)
- Download case history onto USB memory stick
- 8 waveform channel display, including 4 vector simultaneous ECG or full 7 vector ECG display
- 120 hour graphical trends; 12-minute full recall ECG memory
- 4 veterinary specific alarm defaults (dog, cat, horse, other)
- USB port for downloading, VGA port for video
- Invasive pressure (2-channel) and anesthetic agent monitoring options
- Optional esophageal ECG probe
- Intuitive, easy to navigate menu
- 2-year warranty, 1-year battery

C-Stat5	Mainstream CO ₂ probe – Upgrade the DUO any time!	\$2,250.00
LoFlo	Sidestream CO ₂ module – Upgrade the DUO any time!	\$2,250.00

Additional monitoring accessories are available at midmarkanimalhealth.com/store

For monitor mounts, see page 70.

Cardell® 9500 HD

The Cardell® 9500 HD features world leading Cardell® blood pressure, Nellcor digital pulse oximetry, and optional Respironics solid-state mainstream or LoFlo sidestream CO₂ module. You can also measure ECG, Respiration and 2 channels of temperature. With a 7" high definition wide screen display and integrated printer, it's exactly what Cardell® fans want!

- High definition, full color 7" screen
- World-leading Cardell® Veterinary BP technology
- Nellcor's all-digital Oximax® pulse oximetry
- Diagnostic quality ECG (3 or 5 lead) with three filtering modes
- Upgrade to CO₂ anytime (sidestream or mainstream)
- Download case history onto USB memory stick
- 2 YSI temperature channels
- Built-in 3-channel printer
- 48 hours of graphical trends on each parameter
- 4-channel waveform display
- Quick BP readings of systolic, diastolic and mean
- Automatic, STAT and manual BP modes
- Pulse rate range from 20-300 bpm
- High and low alarms for all parameters
- Alarm triggered print function
- Stores up to 600 sets of tabular data
- Waveform displayed at 12.5, 25 or 50 mm/sec
- Operates on AC or rechargeable battery
- 2-year warranty
- Optional Esophageal ECG Probe

9500 HD	Cardell® Monitor with Integrated Printer NIBP/SpO ₂ /3-Lead ECG/Resp/Temp	\$4,395.00
9500 HD + C-Stat5	Cardell® Monitor with optional Respironics Mainstream CO ₂ sensor	\$6,645.00
C-Stat5	Mainstream CO ₂ probe	\$2,250.00
LoFlo	Sidestream CO ₂ module	\$2,250.00

Diagnostic Monitoring

Cardell® Model 9401 BP Monitor

- Provides systolic, diastolic, mean arterial pressure and heart rate in seconds
- Screening mode automatically calculates average of last five readings
- Pulse rate range from 20 to 300 beats/min
- Set auto measurement from 1-90 minutes
- AC or rechargeable battery (4 hours). Works on 100 volt to 240 volt
- Stores 99 minutes of readings or last 5 hours
- High and low alarm setting for all parameters
- Message window displays system alarms and trouble-shooting messages
- 13 cuffs in 7 different sizes included
- 3-year warranty; 1-year on battery pack

9401	Cardell® Monitor NIBP	\$2,395.00
------	-----------------------	------------

Cardell® Model 9402 BP/SpO₂ Monitor

Contains all 9401 features plus:

- Nellcor all-digital OxiMax® SpO₂ technology. Provides superior accuracy and works in low perfusion and during patient motion
- A reflectance SpO₂ sensor (MaxFast-1) is also available for use on the base of the tail during dental procedures
- 3-year warranty, 1-year warranty on battery

9402	Cardell® Monitor NIBP/SpO ₂	\$3,295.00
------	--	------------

CardEX™ 300

Delivering simple, reliable and accurate veterinary ECG, the CardEX™ 300 is a must-have for every veterinary practice. With veterinary specific algorithms, this monitor offers the clinician a full array of diagnostic options.

- Simultaneous 5-lead acquisition
- Supports all 7 vectors
- High-resolution built-in 3-channel thermal printing
- Four print modes (auto, manual, rhythm, USB)
- Print speeds (mm/sec) 5, 6.25, 10, 12.5, 25, 50
- LCD waveform display; parameters configurable
- Multiple digital filters avoid baseline drift, AC, EMG interference
- Automatic baseline adjustment for optimal recording
- Lead-off detection/alarm; paper-out/low-battery alerts
- 120 patient data storage
- Transfer to PC via USB flash disk, ethernet or serial port
- ECG data can be reviewed and managed with optional PC Viewer software
- Built-in rechargeable Li-ion battery with high capacity (>3 hrs); AC/DC supply
- Well-designed touch panel for easy operation
- Auto or manual operation
- Light (5.5 lbs) and compact
- 2-year warranty

CDEX-300

\$1,495.00

Handheld Monitoring

TidalGuard™ HD CO₂/SpO₂ Monitor

The TidalGuard™ HD is compact and portable, with a crisp high-definition color screen and the choice between Philips-Respironics solid-state Capnostat mainstream probe or LoFlo sidestream module combined with digital pulse oximetry. It's designed to provide immediate clinical feedback of actual expired CO₂. The TidalGuard™ HD helps provide critical information during anesthesia, such as depth of anesthesia, cardiac output and perfusion, and reliable respiration.

- Measures EtCO₂, respiration rate, SpO₂, pulse rate
- Reduced to the size of a smart phone
- New high-definition, bright color screen
- Choose between mainstream or sidestream CO₂
- Diagnostic CO₂/SpO₂ waveforms
- Audible/visual physiological and technical alarms
- User adjustable alarm limits
- Pre-set alarm limits for cats, dogs and horses
- Three-hour graphical trend review
- Up to 99 patient IDs
- Operates on four "AA" NiMH 2400mAh-2500mAh rechargeable batteries (>4.5 hrs), or AC power
- Power charger/cradle included

Fluid & Temperature Management

i-Warm™ IV Fluid Warmer

An economical fluid warmer with temperature display for standard IV sets. Safely infuse fluids at body temperature rather than room temperature to reduce risk of hypothermia.

- Portable and lightweight
- Convenient hanging belt to hang on IV pole
- Current temperature displayed in Fahrenheit or Celsius
- Temperature overheating protection
- Indicators for warming (orange), power (green) and overheating (red)
- Reduces prep time to warm fluid
- Can monitor temperature second to second
- Reduces patients' discomfort due to cold fluid
- Compatible with standard IV sets
- Not recommended for use with blood products
- Warranty - 1 Year

Midmark Sterilizers

Our full line of sterilizers address all of your important sterilization needs. In fact, we're sure you'll find a Midmark sterilizer that's just right for your practice.

M9 and M11 UltraClave® Automatic Sterilizers

- Fast and easy use for efficient instrument processing
- Reliability and effectiveness for infection control assurance
- Patented automatic opening door for efficient instrument drying
- Maximum space utilization
- Four pre-set cycles and two user-programmable cycles

M11 UltraClave® Automatic Sterilizer

Largest Tabletop Sterilizer

- Automatic door opens once sterilization process is complete
- Chamber size: 11" x 18"
- Sterilizer weight: 99 pounds (44.9 kg)
- Shipping weight: 131 pounds (59.4 kg)

Soniclean® Ultrasonic Cleaners

The Midmark Soniclean® uses a high frequency transducer that allows the unit to perform quietly. Tiny cavitation bubbles are produced with the higher frequency, allowing the bubbles to penetrate smaller crevices. This results in a powerfully quiet ultrasonic cleaner.

The Midmark Soniclean® is extremely easy to operate - simply load your instruments and set the timer.

- The external drain is very accessible and easy to use
- Three size options
- Place on countertop or recess for a lower profile

Soniclean® M150 Ultrasonic Cleaner

- Tank Capacity: 1.5 gal. (5.7 L)
- Tank Size: 11.5" x 6" x 6" (292.1 x 152.4 x 152.4 mm)
- Overall Size: 16" x 12" x 14.5" (406.4 x 304.8 x 368.3 mm)
- Soniclean weight: 12 pounds (5.4 kg)
- Shipping weight: 17 pounds (7.7 kg)
- CSA Listed, TUV & FCC Registered

Does not include required safety basket accessory, see page 75.

Midmark Product Warranty

SCOPE OF WARRANTY

Midmark Corporation ("Midmark") warrants to the original purchaser its Exam Room Casework, Veterinary products and components (except for components not warranted under "Exclusions") manufactured by Midmark to be free from defects in material and workmanship under normal interior use and service. Midmark's obligation under this warranty is limited to the repair or replacement, at Midmark's option, of the parts or the products the defects of which are reported to Midmark within the applicable warranty period and which, upon examination by Midmark, prove to be defective.

APPLICABLE WARRANTY PERIOD

The applicable warranty period, measured from the date of delivery to the original user, shall be as follows:

1. LIGHTING & SEATING PRODUCTS are warranted against defect in material and workmanship for a period of 1 year from the time of delivery, except dental lights and dental stools which are warranted against defect in material and workmanship for a period of 2 years from time of delivery.

2. STERILIZER PRODUCTS are warranted against defect in material and workmanship for a period of 1 year from the time of delivery.

3. ULTRASONIC CLEANER PRODUCTS when used in accordance with manufacturer's instructions and under normal use, are guaranteed for 2 years after date of shipment. Within the period guaranteed, the manufacturer will repair or replace free of charge, at its sole discretion, all parts that are defective because of material or workmanship, including costs for removing or installing parts. Repairs are made on an FOB repair depot basis. Manufacturer's liability, whether based on warranty, negligence or other cause, arising out of and/or incidental to sale, use or operation of the transducer elements, or any part thereof, shall not in any case exceed the cost of repair or replacement of the defective equipment, and such repair or replacement shall be the exclusive remedy of the purchaser, and in no case shall manufacturer be responsible for any and/or all consequential or incidental damages including without limitation, and/or all consequential damages arising out of commercial losses.

4. CASEWORK PRODUCTS are warranted against defect in material and workmanship for the period indicated below from the time of delivery:

- (a) Five (5) years for all products and components (except for the shorter periods in [b and c]), including plastic laminate top surfaces, door and drawer fronts, casters and electrical components such as task lights and cords.
- (b) Three (3) years for task light ballast.
- (c) One (1) year for plastic laminate, solid surface countertops and accessories.

5. CANIS MAJOR® LIFT TABLES are warranted against defect in material and workmanship for a period of 1 year from the time of delivery.

6. VETPRO® 1000 and VETPRO® 5000 DENTAL DELIVERY SYSTEMS are warranted against defect in material and workmanship for the period indicated below from the time of delivery:

- (a) 2 years for all products and components (except for the periods in b through d).
- (b) Kink-Valve module carries a 10-year warranty.
- (c) Accessories not manufactured by Midmark are excluded (i.e. fiber optic systems, scalers, handpieces, etc.)
- (d) Replacement parts and accessories carry a 90-day warranty.

7. MATRIX® ANESTHESIA PRODUCTS are warranted against defect in material and workmanship for the period indicated below from the time of delivery.

- (a) Matrix® anesthesia machines and VIP 3000® vaporizers (excluding VXP™ vaporizers) carry a 5-year warranty.

- (b) Matrix® anesthesia accessories and VXP™ vaporizers carry a 1-year warranty.
- (c) Midmark serviced vaporizers carry a 6-month warranty
- (d) Plastic, rubber and disposable anesthesia parts or products shall be free from defects in workmanship and materials at the time of delivery to the customer.

8. AIR COMPRESSOR AND VACUUM PRODUCERS:

PowerAir®, PowerVac®, DryVac and PowerMax carry a 5-year/3,500 hour warranty. VetPro® Solo compressors carry a 2-year warranty.

9. MONITORING AND CRITICAL CARE PRODUCTS

carry the following warranty, excluding the shorter periods in section (e):

- (a) Cardell® 9401 & 9402 monitors carry a 3-year warranty.
- (b) Cardell® 9500HD, all MAX-12 monitors, Versaflo™ syringe pumps, C-STAT Mainstream and LoFlo Sidestream CO₂ Modules and CardEX™ ECG monitors carry a 2-year warranty.
- (c) The TidalGuard™ HD monitor and its mainstream and sidestream CO₂ sensors carry an 18-month warranty (its SpO₂ sensor is warranted for 6 months)
- (d) i-Warm™ fluid warmers carry a 1-year warranty.
- (e) The CO₂ component in the MAX-12 multigas module, batteries, battery chargers and temperature probes carry a 1-year warranty. Nellcor V-SAT SpO₂ sensors carry a 9-month warranty. Printer batteries and ECG esophageal probes carry a 6-month warranty. Blood pressure cuffs, CO₂ sidestream sample lines, CO₂ mainstream adapters and ECG cable/wire sets shall be free of defects at the time of delivery to the customer.

EXCLUSIONS

This warranty does not cover and Midmark shall not be liable for the following: (1) repairs and replacements required because of misuse, abuse, negligence, alteration, accident, freight damage or tampering; (2) matching of color, grain or texture except to commercially acceptable standards; (3) changes in color caused by natural or artificial light; (4) products which are not installed, used and properly cleaned as required in the Midmark written "Installation" and/or "Installation/Operation" Manual applicable for the product; (5) products considered to be of a consumable nature such as light bulbs and surge suppression product; (6) accessories or parts not manufactured by Midmark; (7) specially manufactured products; (8) damage caused by animals; (9) charges by anyone (including Midmark's authorized dealers) for adjustments, repairs, replacement parts, installation or other work performed upon or in connection with such products which is not expressly authorized in writing in advance by Midmark. This warranty does not cover sinks, faucets and plumbing accessories. Any warranties on these items are extended directly by the manufacturer of these items to the original purchaser. Information on these manufacturer's warranties will be enclosed with the applicable products. Also, Midmark will furnish copies of any of the warranties extended by any such manufacturers upon request.

EXCLUSIVE REMEDY

Midmark's only obligation under this warranty is the repair or replacement of defective parts. Midmark shall not be liable for any direct, special, indirect, incidental, exemplary or consequential damages or delay including, but not limited to, damages for loss of profits or loss of use.

NO AUTHORIZATION

No person or firm is authorized to create for Midmark any other obligation or liability in connection with the products.

THIS WARRANTY IS MIDMARK'S ONLY WARRANTY AND IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED. MIDMARK MAKES NO IMPLIED WARRANTIES OF ANY KIND INCLUDING ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. THIS WARRANTY IS LIMITED TO THE REPAIR OR REPLACEMENT OF DEFECTIVE PARTS.

X-ray Limited Warranty

SCOPE OF WARRANTY

MIDMARK CORPORATION warrants to Buyer that any new product manufactured under PROGENY® brand name ("Product") will (i) be free from defects in material and manufacturing workmanship and (ii) conform to applicable specifications in effect on the date of shipment. The criteria for all testing shall be the applicable specifications, utilizing factory-specified calibration and test procedures and instruments.

All product warranties and all remedies for warranty failures are limited in time as shown below.

DURATION OF WARRANTY

PROGENY® brand Collimators, Buckys High Tension Cables, X-ray Systems, Intraoral Cameras and Digital Sensor Systems shall be warranted for a period of two years from the original use date of installation or, thirty months from the date of shipment from PROGENY®, whichever occurs first. Any component furnished without charge to buyer during the warranty period to correct a warranty failure shall be warranted only to the extent of the unexpired term of the warranty of the original product.

WARRANTY TERMS AND CONDITIONS

Warranty consideration will be given only for products returned to the PROGENY® factory properly packaged and if applicable, accompanied by a fully completed Returned Goods Authorization/Service Report. All shipping charges resulting from Warranty returns are the responsibility of the Purchaser. Only in the case of repairs effected under Warranty is MIDMARK CORPORATION responsible for shipping charges.

WARRANTY EXCLUSIONS

The forgoing warranties are exclusive and in lieu of all other warranties, whether written, oral, express, implied or statutory. NO IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE SHALL APPLY.

THE WARRANTIES AND REMEDIES AVAILABLE TO THE BUYER ARE CONDITIONED UPON ALL CLAIMS UNDER THIS WARRANTY BEING MADE WITHIN THE SPECIFIED PRODUCT WARRANTY PERIOD (SEE "DURATION OF WARRANTY"). THE DATE OF INSTALLATION MUST BE ESTABLISHED BY THE RETURN TO PROGENY® WITHIN 15 DAYS OF THE DATE OF INSTALLATION OF A FULLY COMPLETED WARRANTY REGISTRATION CARD, SUPPLIED WITH THE PRODUCT. IN THE ABSENCE OF SUCH PROOF, THE DATE OF SHIPMENT FROM PROGENY® WILL BE CONSIDERED THE DATE OF INSTALLATION.

Warranty coverage does not include any defect or deficiency (including failure to conform to Product descriptions or specifications) which result in whole or in part, from (1) negligent storage or handling of the Product by Buyer, its employees, agents or contractors; (2) failure of Buyer to prepare the site or provide power requirements or operating environmental conditions in compliance with any applicable instructions or recommendations of MIDMARK CORPORATION; (3) the absence of any product, component or accessory recommended by MIDMARK CORPORATION but omitted at Buyer's direction; (4) any design, specifications or instructions furnished by Buyer, its employees, agents or contractors; (5) any alteration of the Product by persons other than MIDMARK CORPORATION; (6) combining MIDMARK CORPORATION's Products with any product furnished by others; (7) combining incompatible products of MIDMARK CORPORATION; (8) improper or extraordinary use of the Product, improper maintenance of the Product, or failure to comply with any applicable instructions or recommendations of MIDMARK CORPORATION, or (9) acts of God, acts of civil or military authority, fires, floods, strikes or other labor disturbances, war, riots or other causes beyond the reasonable control of MIDMARK CORPORATION. MIDMARK CORPORATION does not warrant any product of others where MIDMARK CORPORATION serves solely as a distributor or resaler.

BUYER'S REMEDIES

If MIDMARK CORPORATION determines that any Product fails to meet any warranty during the applicable warranty periods, MIDMARK shall correct any such failure either at its option (a) by repairing, adjusting or replacing any defective or non-conforming Product, or defective or damaged part or parts of the Product, or (b) by making available at the place of assembly any necessary repaired or replaced parts or assemblies. MIDMARK shall have the option to furnish either new or exchange

replacement parts or assemblies.

Installation, troubleshooting or repair services are not included in this Warranty. Warranty of service is the responsibility of the dealer selling the equipment.

The preceding paragraphs set forth Buyer's exclusive remedies and MIDMARK'S sole liability for claims based upon failure of the product to meet any warranty, whether the claim is on contract, warranty, tort (including negligence and strict liability) or otherwise and however instituted, and, upon the expiration of the applicable warranty period, all such liability shall terminate. In no event shall MIDMARK CORPORATION be liable for special or consequential damages.

Ordering Information

Midmark Product Ordering Notes

1. ORDERING

Please include the following with your order:

- Quantity
- Part number
- Description
- Signature of person placing the order
- Approximate shipping date required
- Method of transportation
- Purchase order number

Model number and name of item must be specified on purchase order.

Minimum Order - \$25.

2. SPECIAL DESIGN

Orders for equipment of special design, construction, finish or upholstery are not subject to cancellation after your acceptance of our acknowledgement. Special design products, custom design cabinets and special upholstery WILL NOT be accepted for credit.

3. RETURN OF MERCHANDISE

Authorization must be obtained for the return of any item. If return is authorized, transportation charges must be prepaid. Items returned for credit are subject to a charge of 25% or more to cover inspection, reconditioning and repackaging. Anesthesia accessory returns are not accepted for rubber goods over 30 days old, rubber goods not in original, sealed package and all hoses. Goods without a Return Goods Authorization (RA) and merchandise more than 90 days old (from Midmark invoice date) are also not accepted for return.

NOTE: Certain items are manufactured to order and are non-returnable, including Midmark Casework, Ritter Casework and Care Exchange™ Workstations.

4. FREIGHT DAMAGE

It is the consignee's responsibility to count and inspect upon receiving. Merchandise arriving with external damage should be described on Proof of Delivery, Delivery Receipt or Bill of Lading. In case of concealed damage, consignee must contact the carrier within 15 days after receipt and claims for damage instituted.

5. IMPROVE PRODUCT QUALITY

Midmark Corporation reserves the right to change design and construction without notice.

6. ORDER CHANGES

Any requested changes to an order within 5 days of the scheduled/acknowledged ship date will result in an extension to the scheduled ship date. The new ship date will be re-scheduled/acknowledged based on the extent of the changes requested.

7. CASEWORK ORDER CHANGES

Any order changed within 3 weeks prior to the scheduled ship date will result in a change of ship date and may incur additional costs.

8. SPECIAL ORDER REQUIREMENTS

Any order requiring special deviation from standard products will carry the following disclaimer:

We hereby accept and acknowledge the above captioned order provided, however, because of the special nature of this order in that this equipment is being supplied upon special design specifications, special materials, and/or field modification, as per your request, the standard warranties of Midmark on its products are not applicable to the order, and this acceptance and acknowledgement is conditioned upon your indemnification and promise to hold Midmark, its officers, employees and agents, harmless in respect to any and all warranty claims, damages, both direct and consequential,

expenses, costs, and any liability arising from the use of or relating to this special equipment.

9. ANESTHESIA SERVICE AND REPAIR POLICY

Midmark offers evaluation and repair service on Matrix® anesthesia equipment including Ohmeda, Faser Harlake, Fraser Sweatman and Cyprane TEC 3. Products returned for repair require a return authorization. Contact Customer Service at 1-800-643-6275, ext. 88951, to obtain an (RA) number. Send the product freight prepaid.

Vaporizers returned for servicing also require an (RA). A purchase order number must accompany the vaporizer. Subsequent to servicing, each vaporizer has a separate service and performance record established which is placed on file in the Midmark Vaporizer Service Center in Versailles, Ohio. Should the need arise to verify that your equipment has been maintained to manufacturer's specifications, we will be happy to supply this information.

10. IMAGING ORDER INFORMATION

For ordering information on imaging products, please contact our Imaging Customer Service Team at 888-924-3800, option 2, or visit progenyvetimaging.com. Imaging products are not available through all Midmark authorized dealers.
